

# Frontend Implementation

**Purpose:** Technical documentation for frontend development, covering architecture and implementation details.

**Key Contents:**

- Frontend architecture overview
- Component hierarchy and organization
- State management patterns and data flow
- API integration patterns and error handling
- Web3 wallet integration specifications
- Performance optimization guidelines
- Build and deployment procedures
- Browser compatibility requirements

- Architecture Overview
- Component Structure
- State Management
- API Integration
- Web3 Integration
- Performance Optimization
- Build & Deployment
- Browser Compatibility

# Architecture Overview

# Component Structure

# State Management

# API Integration

# Web3 Integration

# Performance Optimization

# Build & Deployment

# Browser Compatibility
